PROJECTS

"WaitLess" · Queueing App Prototype
Team Lead · https://github.com/ammanyusuf/WaitLess · September 2020 - December 2020
· Designed a queueing application for University student advising through the use of UX/UI design principles.
· Constructed a high fidelity, fully interactable user interface using Adobe XD.
· Conducted research of end users using IDEO card methods.
· Tested the look and feel of the interface though a Heuristic Evaluation.

"Journalr" · Journal Web Application
Team Lead · https://github.com/ammanyusuf/Journalr · February 2020 - April 2020
· Developed a platform to manage the interaction between Authors, Reviewers, and Editors of a University journal collection.
· Designed a database schema using MySQL to store user information as well as written journals.
· Learned and utilized Spring Framework to manage the interaction between front-end and back-end development.
· Stylized the web-application with HTML5, CSS, and Bootstrap.

"Travollor" · Traveler Management System
Code Builder/Reviewer · https://github.com/ammanyusuf/Travollor · February 2020 - April 2020
· Built a traveler management system that deals with tourists finding the best deals and recommendations as provided by locals in cities.
· Constructed the database schema to represent the interactions in the MySQL database.
· Connected the logic of the application and the database with the ASP.NET framework. Tested project endpoints with Postman.

Personal Website
https://ammanyusuf.github.io/ · January 2021
· Created an HTML and CSS personal website hosted on GitHub.
· Completed a simplistic UI design aimed to be accessible on various platforms.

EXPERIENCE

IT Support
Champion Driving School   July 2020 - August 2020, Calgary, AB
· Maintained and edited the company website through WordPress.
· Assisted in the set-up of a Virtual Classroom for student use.
· Resolved technological issues in a timely manner.

Customer Service Representeative
Champion Driving School   June 2019 - August 2019, Calgary, AB
· Utilized strong interpersonal and communication skills to serve customers and address their needs and concerns.
· Managed incoming and outgoing calls pertaining to scheduling/purchasing driving lessons.
· Scheduled driving lessons for 20 students at a time.
